

Masks

Reusable Face Mask With Cord Tie

This facemask has been manufactured in a lightweight poly-cotton twill. The two layers of fabric are shaped to create a comfortable and fitted mask, whilst the lower cord tie enables the mask to be adjusted with ease to suit all wearers. The fabric is suitable for industrial wash conditions and for wearing in general working environments including higher working temperatures.

Please note this mask is neither a medical device or an item of approved PPE and must be worn and used in conjunction with hygiene guidelines from the health authorities.
